

ASWIN A K

AI Engineer | Product Engineer | Full-Stack Developer

Phone: +91 8848590435 | Email: aswin@xpar.in | Website: aswin.xpar.in
GitHub: github.com/aswinakofficial | LinkedIn: linkedin.com/in/aswinakofficial

TECHNICAL SKILLS

Languages: Python, C#, JavaScript, TypeScript, SQL, Dart

AI and Machine Learning: Retrieval-Augmented Generation (RAG), Agentic AI, Large Language Models (LLMs), Prompt Engineering, LangChain, Azure AI Foundry, Vector Databases

Backend: ASP.NET Core, .NET, Django, Node.js, REST APIs, FastAPI

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Flutter

Cloud and DevOps: Microsoft Azure, Azure Functions, Databricks, Docker, Kubernetes, GitHub Actions, Linux

Databases: SQL Server, PostgreSQL, MongoDB, Azure AI Search

Developer Tools: Git, GitHub Copilot, Visual Studio Code, Postman, n8n

PROFESSIONAL EXPERIENCE

EY Global Delivery Services

July 2024 – Present

Product Engineer

Kochi, India

- Designed and developed enterprise-grade AI solutions using Azure AI Foundry, Azure OpenAI, Databricks, and Python to accelerate business workflows and improve operational efficiency
- Built Retrieval-Augmented Generation (RAG) applications by integrating Azure AI Search, vector databases, and enterprise knowledge sources to deliver context-aware AI experiences
- Developed scalable backend services and REST APIs using ASP.NET Core, C#, and Python while following modern software engineering and clean architecture principles

FEATURED PROJECTS

Prepora - AI-Powered Learning Platform

Ongoing

- Building a modern AI-powered learning platform that aggregates examination resources, study materials, and previous year question papers into a unified learning experience
- Designing an intelligent search and recommendation system using Retrieval-Augmented Generation (RAG) to provide contextual answers from educational content
- Developing scalable backend APIs and responsive frontend interfaces using modern full-stack technologies with cloud-native deployment architecture

Enterprise RAG Platform

- Designed and implemented Retrieval-Augmented Generation pipelines integrating Azure AI Search, vector embeddings, and enterprise knowledge sources for contextual AI responses
- Improved answer relevance and reduced hallucinations through semantic retrieval, prompt engineering, and document chunking strategies

RexAI - AI Assistant

- Built an AI-powered assistant capable of orchestrating multiple enterprise workflows using LLMs, prompt engineering, and intelligent automation
- Focused on modular architecture, reusable AI components, and scalable orchestration patterns for enterprise adoption

StethoConnect - Healthcare Platform

- Developed a healthcare platform enabling seamless interaction between patients and healthcare providers through secure digital workflows
- Designed scalable backend services and intuitive user interfaces while ensuring reliable data management and accessibility

CERTIFICATIONS

Microsoft Certified: AI Engineer Fundamentals (DP-900)

Microsoft Certified: Azure AI Fundamentals (AI-900)

Microsoft Certified: Azure Fundamentals (AZ-900)

EDUCATION

Cochin University of Science and Technology (CUSAT)

2020 – 2024

Bachelor of Technology in Information Technology

CGPA: 8.56/10
